

# ROBOTECH CATALOGUE

## ROBOTIC SOLUTIONS USED IN THE FIELD OF MANUFACTURING IN HUNGARY

## MEDIA INFORMATION

### CONCEPT

GyártásTrend Magazin aims to publish a robotics catalogue which specifies the players offering robotic solutions that are available in Hungary.

Robots are key parts of the processing industry and although their installation is resource-intensive, for the completion of certain tasks their application is inevitable.

Our publication aims at presenting the robotic supply available in Hungary. It includes – among others – the manufacturers of robots, accessories and system integrators so as to help the navigation among the wide range of opportunities and encourage the processing industry to adopt the technology.

### TARGET AUDIENCE

All the operators and professionals involved in the technological side of the manufacturing procedures, including:

- manufacturing and processing industry
- technical decision-makers
- system engineers, robot programmers

**GYARTÁS  
TREND**

### STRUCTURE

In the introductory part of the publication in short articles we will review the robotic solutions, the fields of use and the spread of robotics through statistics and in a couple of case studies we will demonstrate the benefits of using this technology.

The main part of the publication presents the robotic manufacturers, the companies offering accessory solutions and system integrators in a listed form.

Our aim is not to rank the most widely used products or the largest market players, but we wish to gather up the solutions which can help the manufacturing companies to optimize their processes and to increase their productivity.

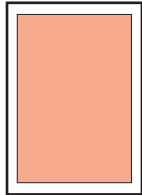

In the publication we present products from robotic manufacturers, or the companies offering software or other accessory solutions as well as the integrators' services using the same criteria.

For our partners wishing to have featured content in the catalogue, we provide an extra opportunity.

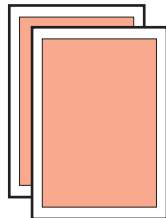

## ADVERTISING SPACES

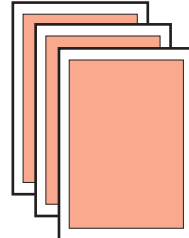

We offer publication possibility in the listing of the catalogue for each market player of the relevant industries. Our partners can choose among the below listing page prices:

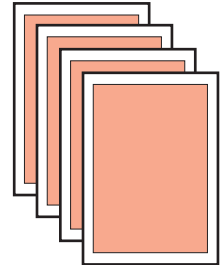

1 listing page  
**325 EUR**

2 listing pages  
**620 EUR**

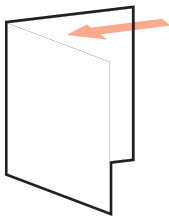

3 listing pages  
**880 EUR**

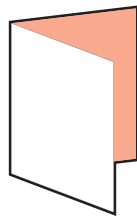

4 listing pages  
**1100 EUR**

Further pages can be booked for 230 EUR/page. Price includes layout and editing of pages.

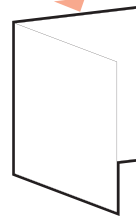

For the purpose of general communication (image advertisement, PR article) you can choose among the below spaces:

**C2 cover**  
trim size: 200x245 mm  
bleed: 5-5 mm

**C3 cover**  
trim size: 200x245 mm  
bleed: 5-5 mm  
**1600 EUR**

**C4 cover**  
trim size: 200x245 mm  
bleed: 5-5 mm  
**1960 EUR**

**1/1 page**  
trim size: 200x245 mm  
bleed: 5-5 mm  
**1300 EUR**

**2/1 pages**  
trim size 400x245 mm  
bleed: 5-5 mm  
**2300 EUR**

### TECHNICAL PARAMETERS

**submit:**  
composite pdf,  
300 dpi

**4 colour**  
sheet offset  
trim size:  
200x245 mm  
stitched

## DISTRIBUTION DATA

**8000** copies

**Publication:**  
23 September 2022

**Delivery date:**  
02 September 2022

The RoboTech Catalogue will be distributed together with the GyártásTrend magazine in form of a supplement and it will reach its readers (i.e. the market players of manufacturing technology) by post, according to a controlled mailing list.

**PLACEMENT CHARGE:** The publisher reserves the right to count extra charge above the listed price for placement or tender requirements.
